

Live Equipment Demonstrations From Top Brands

What Last Year's Attendees Are Saying

"We got more out of your
STEEL TECH show than
we did **FABTECH**"

Marty Miller, *President*
Miller Metal Fabrication

RSVP Today

This event is free, but please RSVP to secure your spot before it's too late.

RSVP at www.MidAtlanticMachinery.com/Events or by calling 717.541.1633

Nearby Lodging

Lodging is available in close proximity to Steel Tech 2022 and the Great American Outdoors Show. Call the hotel to reserve a room

SpringHill Suites by Marriott Harrisburg
15 Capital Drive At I-81 Progress Avenue Exit 69
Harrisburg, PA 17110
(717) 540-5100

Best Western Premier The Central Hotel & Conference Center
800 E Park Dr, Harrisburg, PA 17111
(717) 561-2800

Sheraton Harrisburg Hershey Hotel
4650 Lindle Rd, Harrisburg, PA 17111

SCHEDULE OF EVENTS

TUESDAY Feb. 8th, 9am – 7pm

ALL DAY | Equipment Demonstrations
Interact with Factory Experts
Network with Industry Peers

SEMINARS

9:00 AM | TRUMPF Fiber Laser - Power by the Hour & Nitrogen Generation by Southtek Systems
Learn how to get 10,000 watts of power out of your 6,000-watt laser to cut thicker and faster. Gain a competitive edge by producing your own assist gas. Save on costs, contracts, down time, and eliminate material handling.

10:00 AM | MAMA – Mobile Robotic Bending Cell, find your brake operator
We have the solution to manpower. Upgrade your standalone press brake to an automated bending cell. Simple & safe Automation.

10:45 AM | Arku Flatmaster Leveling Technology
Learn how flatter parts help your bending and all downstream operations.

11:30 AM | Flow Waterjet Cutting – Your most versatile cutting machine.
Flow is revolutionizing waterjet cutting with energy efficient pumps and automatic garnet removal. Add the capability of flexible cutting up to 12" thick and bevel cutting

12:00 PM | Lunch

1:00 PM | TRUMPF Tube Laser Technology
Become more efficient in processing shapes and tubes by eliminating material handling, sawing, drilling, deburring and tapping.

2:00 PM | Automate Welding Operation: TRUMPF TruArc 1000 Weld Cell
A turnkey, simple and easy to use welding cell utilizing collaborative robot technology with two station operation.

3:00 PM | FINISHLINE – The All-in-One Deburring & Finishing Solution
Learn how to deburr, grain, edge round, remove oxide and dross in one machine that eliminates hours of manual processing.

4:00 PM | 3D/2D Cutting by C.R. Onsrud CNC Routers & Machining Centers
Expand your 3D capabilities into metal, composites, rubber and wood. Routers complement your existing lasers, CNC punches and waterjets by cutting, beveling, tapping and machining.

WEDNESDAY Feb. 9th, 9am – 7pm

ALL DAY | Equipment Demonstrations
Interact with Factory Experts
Network with Industry Peers

SEMINARS

9:00 AM | 3D/2D cutting by CR Onsrud CNC Routers & Machining Centers
Expand your 3D capabilities into metal, composites, rubber and wood. Routers compliment your existing lasers, cnc punching and waterjets by cutting, beveling, tapping and machining.

10:00 AM | CNC Press Brake Bending or Panel Bending by TRUMPF
What's the right technology to improve your bending process? Should you automate your bending? Add a 10-axis press brake to your operation or is a panel bending more efficient? Let us help you determine what will give you the greatest return on your investment.

11:00 AM | FINISHLINE – The All-in-One Deburring & Finishing Solution
Learn how to deburr, grain, edge round, remove oxide and dross in one machine that eliminates hours of manual processing.

12:00 AM | Lunch

1:00 PM | When does a CIDAN CNC Folding machine make sense?
Do you form large parts with two or three operators? Do you struggle with marring and shoulder rub on your parts? Would you like to eliminate tool changes, employee injuries from lifting heavy parts?

2:00 PM | TRUMPF Fiber Laser - Power by the Hour & Nitrogen Generation by Southtek Systems
Learn how to get 10,000 watts of power out of your 6,000 Watt Laser to cut thicker and faster to give you a competitive edge
Gain a huge competitive edge by producing your own assist gas. Save on gas costs, save on contracts, eliminate material handling and down time.

3:00 PM | Flow Waterjet Cutting – Your most versatile cutting machine.
Add the flexibility of cutting up to 12" thick material or bevel cutting to your abilities. How are energy efficient pumps and automatic garnet removal revolutionizing waterjet cutting? Come learn with us.

4:00 PM | TRUMPF Tube Laser Technology
Become more efficient in processing shapes and tubes by eliminate material handling, sawing, drilling, deburring and tapping.

THURSDAY Feb. 10th, 9am – 4pm
